*Parent Educator,
Military Outreach*

*Certified FACES
(NCSU) Facilitator*

As a parent or caregiver of a child with special needs, finding resources is not always easy, especially in moments when you need them the most. It can be even more difficult for military families to locate and identify resources to meet their child’s special health care or educational needs. At ECAC, we know that deployment and frequent moves can present additional challenges assessing services and navigating systems.

ECAC is here to help!

OUR SERVICES:

- Provide information, support and training
- Answer questions about early intervention, special education and the transition to adulthood
- Review education documents such as IEPs and IFSPs
- Specialized Support to families and children with Deaf/Blindness
- Make referrals and connections to needed services
- Support family engagement in schools and communities
- Develop leadership skills in parents and youth
- Assist families in advocating for fair, equitable and responsive services

ALL of our Services to Families are at NO COST!
